

AIRX HAS A SOLUTION FOR EVERY DISINFECTION AND ODOR CONTROL NEEDS FROM THE OFFICE TO NURSING HOMES, SCHOOLS AND HOSPITALS...

Disinfecting and cleaning needs vary depending upon the job to be done. That's why Airx offers the state-of-the-art selection of disinfectant cleaners and odor counteractant cleaners available today.

RX 15 CLEANER/DISINFECTANT: 4 oz. per gallon of water offers heavy-duty cleaning, maximum *AIRICIDE*[®] and general purpose disinfecting.

RX 44 HDQ DISINFECTANT/CLEANER: The most advanced of EPA registered concentrate disinfectant cleaners. Disinfects against Staph, MRSA, Hepatitis B and C viruses.

RX 75 TUBERCULOCIDAL HEAVY DUTY CLEANER: Ready to use Spray & Wipe. Disinfects against MRSA, Parvo and (Norwalk) Noro viruses as well as TB, Hepatitis A, HIV-1, HBV and HCV.

RX 78+ NEUTRAL DISINFECTANT CLEANER: Neutral pH will not dull high gloss floors. For hospital use at only 1 oz. per gallon of water.

RX 79+ AEROSOL DISINFECTANT & SPACE DEODORIZER: Disinfects against hospital germs, not just household germs.

RX 89+ AEROSOL DISINFECTANT FOAM CLEANER: For sinks, tubs and hard surfaces. Clings to vertical surfaces for longer contact and deeper cleaning.

RX 101 ODOR COUNTERACTANT CLEANER: A super concentrated complex of synthetic detergents, not a disinfectant. Natural solvents and *AIRICIDE*[®].

RX 109A SUPER CONCENTRATE DISINFECTANT CLEANER: Disinfects at 1/2 oz. per gallon of water. For hospitals, etc. needing light cleaning, but advanced disinfecting.

RX BLOOD SPILL COMPLIANCE CENTER: Cabinet with procedures, clean-up tool, blood coagulant, RX 75 and other need for proper clean-up. Parts available separately.

AIRX LABORATORIES DOCTOR-IN-A-BOX[®]

A COMPLETE COLD & FLU OUTBREAK PREVENTION KIT

The Real Cost Of Colds And Flu...

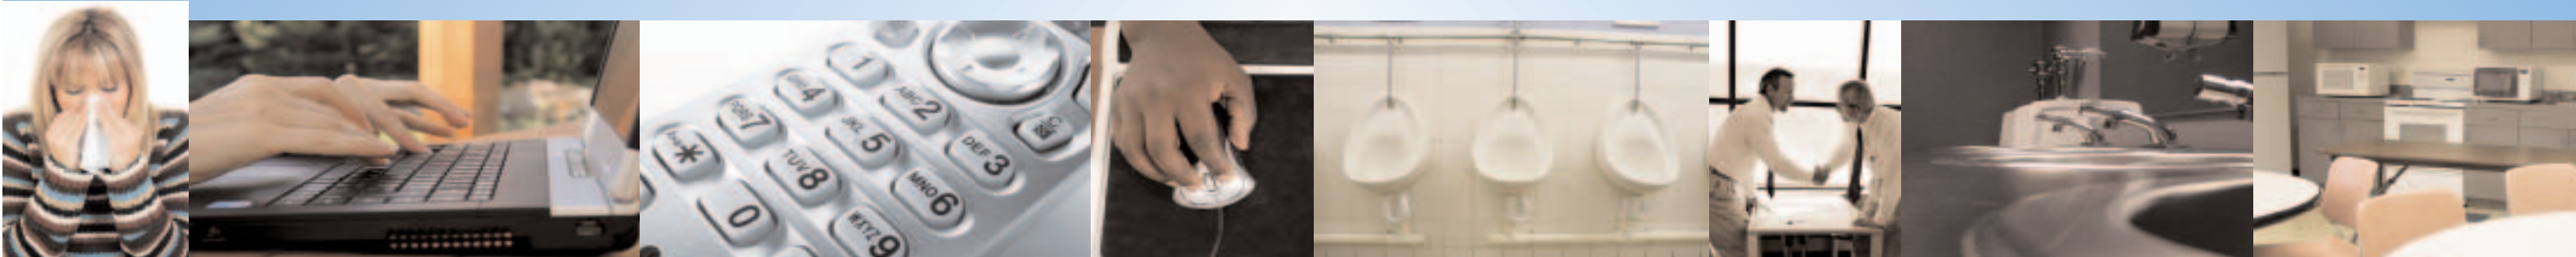

We all know the peak times for colds and flu are between October and April.

But did you know people infected with a cold or flu virus become contagious approximately 24 hours before symptoms appear... and a co-worker can spread their viruses to other co-workers for about 6 days following?

...Because What You Don't Know Could Cost Your Business A Small Fortune In Lost Productivity!

We're Here To Help Your Business Stay Healthy & Virus Free...

Whether or not you're shaking hands with a new client or using a co-worker's telephone, there's an endless source of viruses that WILL affect your staff. While you shouldn't have a knee-jerk reaction and stop all social interaction, you also shouldn't ignore the impact it will have on your operation.

Our professionally designed and researched kit, Doctor-In-A-Box[®], was created to help limit the transmission of infectious viruses and defend your organization from being a victim from a cold or flu outbreak.

Your Doctor-In-A-Box[®] Cold & Flu Prevention Kit Contains:

- **RX200 Foaming Hand Sanitizer** - This 1.7 oz. sized container contains the most powerful sanitizer of virus causing bacteria WITHOUT drying out your hands as compared to other leading brands. It's also an "immediate desktop" aid for your staff to use after coming into contact with someone.
- **RX200 1000 ml BIB and Wall Mount Dispenser** - Your kit contains an attractive wall-mounted dispenser of our powerful but gentle sanitizing foam. Each bag contains enough RX200 for 1,333 uses.
- **RX75 Disinfectant Wipes** - To eliminate surface viruses throughout your organization, RX75 is exactly what you need to quickly disinfect all types of non-porous areas. It's perfect for hard, non-porous surfaces such as computer keyboards, stainless steel surfaces, Formica[®] counter top, tables, food carts, desks, appliance and office equipment keypads, file cabinets, telephones, mouse/mouse pad, door knobs, light switches.
- **RX75 Disinfectant Spray Cleaner** - RX75 disinfectant spray, formulated with our exclusive odor counteractant AIRICIDE[®], is the most powerful disinfectant cleaning spray on the market. Its effective claims are 50% - 66% faster as compared to other leading products so you can be assured of getting the disinfectant job done the first time.
- **Doctor-In-A-Box[®] Protection Pack** - To further protect you and your employees, each Doctor-In-A-Box[®] cold & flu outbreak prevention kit contains a RX 75 disinfectant towelette, paper towels, set of disposable gloves, face mask with shield, bio-hazard disposable bag.
- **Disposable Digital Temperature Strip** - Each kit contains 3 disposable soft, flexible, non-toxic thermometers - ideal for oral or under-arm use. Designed for one-time use, these disposable thermometers accurately measures a person's body temperature in less than 60 seconds. Temperature is measured in degrees Fahrenheit and are each individually wrapped.
- **Virus Control Manual** - To reduce the spread of infectious viruses within your organization, an educated workforce will be your best defense. The Doctor-In-A-Box[®] cold & flu outbreak prevention kit has the right combination of disinfecting sprays, wipes and hand-sanitizers. You'll find the enclosed manual, not only a great resource but also an easy read outlining the right tactics and strategies to protect your organization from infectious situations.

RX75 Antibacterial Heavy Duty Cleaner & Odor Counteractant

A practical spray and wipe disinfectant cleaner

Disinfects Germs Faster

- Disinfects against Organisms in 3 Minutes (The Industry Average is 10 Minutes).
- Disinfects against Hepatitis A (HAV) as well as HIV-1, HBV and HCV (10 Minute Contact Time).
- Disinfects against MRSA and strains of antibiotic-resistant bactericidal activity in 3 Minutes.
- TB In 5 Minutes, instead of 10 Minutes.
- Norwalk (Noro) Virus In Seconds (Typical Outbreak On Cruise Ships).
- Human Coronavirus In 2 Minutes.

Did you know the average cost to employers of last-minute no shows is \$645 per employee a day...

A Name You Can Trust- Airx Laboratories, a leading source of disinfecting and odor control products to hospitals and schools, has more than 40 years of expertise. Behind each Doctor-In-A-Box[®] cold & flu outbreak prevention kit is our years of knowledge in the optimum virus control and biosecurity practices.

You're Supported By Experts - The staff at Airx Laboratories is constantly working on ways to protect your most vital asset: your employees. Our staff of research professionals is always looking for new threats. You have our commitment to have access to the most up-to-date materials to combat these new and ever changing viruses.
