

PROFESSIONAL GRADE DISINFECTANT
& ODOR CONTROL

A TOILET BOWL & URINAL CLEANER SAFE ENOUGH FOR ALL BATHROOM SURFACES

RX 77 DISINFECTANT BATHROOM CLEANER

Now, there is one product – RX 77 that can be used to clean and disinfect, inside and outside the bowl, including the toilet seats. Because it contains absolutely no acids, it can also be used on sinks, tubs, shower stalls, chrome fixtures, floors and other bathroom surfaces. Another unique benefit is that RX 77 not only eliminates foul odors at their source, it contains *AIRICIDE*® to erase odors already in the air.

For years, typical toilet bowl and urinal cleaners have been acids, that have a pungent odor, tend to fume, would irritate the skin, burn holes in carpets and clothing, corrode chrome and aluminum and eat into grouting, marble and terrazzo. Their proper use is really only cleaning the inside of a bowl or urinal. That means that the most critical surfaces – the toilet seat and the flush lever often go uncleaned and unsanitized.

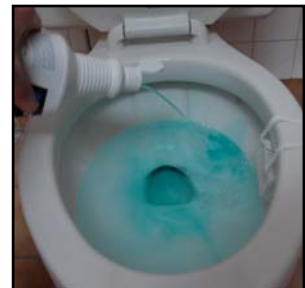

Kills pseudomonas and a broad range of hospital organisms.

Won't harm cleaning personnel uniforms or other clothing.

Safe on toilet seats, tile, marble, terrazzo, chrome fixtures, etc.

Clings under flush ring and at water line for better cleaning.

RX 77 DISINFECTANT BATHROOM CLEANER

DESCRIPTION

RX 77 is especially made for, and EPA registered for, cleaning, disinfecting and deodorizing bath and shower rooms and their surfaces and fixtures. As a thixotropic concentrate, it clings where applied for longer contact with the soil. When diluted it penetrates and attacks soil and germs to clean, sanitize and deodorize surfaces and it contains *AIRICIDE*[®] *Odor Counteractant* to erase odors already in the air.

USES

Can be used on the outside, the seat and the flush handle of toilets as well as the inside of bowls and up under the flush rings. Because it contains no acids, use it also to clean, disinfect and deodorize sinks, tubs, shower stalls and doors, fixtures, etc.

HOW TO USE

TO DISINFECT, CLEAN AND DEODORIZE TOILET BOWLS AND URINALS: Push water out of bowl. Squeeze water from mop head. Then pour 1-2 oz. of RX 77 over mop head and spread over surface to be cleaned. Swab, especially under flush ring. Allow surface to stay wet for 10 minutes before flushing.

TO DISINFECT, CLEAN AND DEODORIZE TOILET SEATS, BATHROOM TILES, FIXTURES, SHOWER STALLS, WALLS, SINKS AND BATHTUBS: Use full strength. Apply liberally to cover thoroughly. Allow to remain wet for 10 minutes. No scrubbing necessary. Pick up dirty solution.

SPECIFICATIONS

ACTIVE GERMICIDAL INGREDIENTS
n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chlorides0.105%
n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides0.105%
pH.....12.5 ± 0.5%
VISCOSITYModerately viscous, free flowing
FILM RESIDUE.....None
ODOR.....*AIRICIDE*[®]
COLOR.....Blue
PHOSPHATE CONTENT.....None
FREEZE-THAW STABILITYNo degradation
BIODEGRADABLEYes
SHELF LIFE.....2 year minimum
EFFECT ON NYLON & OTHER FIBERSNone
EFFECT ON CHROME & OTHER METALSNone
EPA REGISTRATION NO.1459-72-44089

BENEFITS

SAFETY: The government does not require a DANGER! POISON warning with skull & crossbones on RX 77 as required on many toilet bowl cleaners.

WON'T DAMAGE CARPETS: Spill ordinary bowl cleaner on carpeting and you can cause extensive damage. RX 77 blots up without damage.

WON'T DAMAGE UNIFORMS & STOCKINGS: Splashes from many bowl cleaners burn holes in fabrics—not RX 77.

NON-FUMING: There are no pungent fumes or gagging sensation from RX 77. It has a pleasant fragrance pleasing to those cleaning or using the facility.

REGISTERED FOR HOSPITAL USE: Accepted by the EPA as an effective disinfectant against *Pseudomonas aeruginosa* and a broad range of organisms of the type found in hospitals.

IT'S THIXOTROPIC: RX 77 is thick enough to cling under the flush ring and to coat vertical surfaces of bowls. Because it is in contact with soil longer, it cleans better with less effort.

DEODORIZES FOUR WAYS: 1. Kills organisms that produce odors. 2. Removes organic matter. 3. Contains *AIRICIDE*[®] to erase airborne odors. 4. Leaves a pleasant residual odor as evidence that cleaning has been done.

ECONOMICAL: Because it is thicker and won't run off, it takes less to do the job than with other products.

GERMICIDAL EFFICACY

Kills *Staphylococcus aureus*, ATCC #6538 and a wide range of other Gram positive bacteria.

Kills *Salmonella choleraesuis*, ATCC #10708 and a wide range of other Gram negative bacteria.

Kills *Pseudomonas aeruginosa*, ATCC #15442 and thus approved for hospital use.

Kills *Trichophyton mentagrophtes* (athlete's foot fungus) and a wide range of other fungi.

NOW REGISTERED BY EPA AS EFFECTIVE AGAINST GENITAL TYPE HERPES VIRUS
