Airx Laboratories “Clean & Healthy Program”

## Disinfection & Decontamination Certification Program

# "When The Department of Homeland Security Wanted Education, They Called Airx Laboratories."

We'll Teach You More About Today's Trends...

- ◆ How Clean is Clean?
- ◆ Outbreaks: How to Protect Your Facility And The People In It.
- ◆ Surfaces That Cause Transfers.
- ◆ Disinfection Procedures.
- ◆ Purpose of Disinfection.
- ◆ What's The Real Cost & Liability To Any Organization.

Mark Warner - National Director of Certification, Airx Laboratories

## Here's What You'll Learn...

A Recent Survey Revealed 97% of ALL Facilities Were Unprepared For A Disease or Virus Outbreak... Leaving a Huge Financial Liability Looming Overhead.

## Be Certified On The Most Effective Disinfecting and Decontamination Strategies For Your Business...

Are you interested in protecting your organization from today's lethal diseases and viruses? If you do, then we would like to show you a powerful disinfection and decontamination certification process conducted by one of the leading infectious disease control specialists in the nation: Mr. Mark Warner, National Director of Certification of Airx Laboratories.

Mr. Warner, known by many industry professionals throughout the Nation will outline, train and certify you on a proprietary disinfection and decontamination process – a process sought after by many leading Hospitals, Fortune 500 Companies and Governmental Agencies.

### What Makes This Certification Program So Unique...

Mr. Warner and Airx Laboratories designed a certification process to assist and educate you on ways to properly disinfect or decontaminate any building; and to provide for the health and safety of the personnel involved in disinfection and/or decontamination activities.

What We'll Teach You is Based on Years of Extensive Research, Testing and Results.

### Take Your Facility From Average Protection To Ultimate Protection... Overnight!

This is not your typical "sit-on-your-hands-and-listen-to-the-speaker" type of seminar. Instead, it's a very "hands-on-learn-how-to-protect-your-facility-right-on-the-spot" certification seminar. You'll walk away from this certification seminar with the knowledge that most never learn in a lifetime.

Past Certification Classes Have Been Filled; Sign-up by Calling Airx Laboratories at...

(800) 444-8900

- ◆ How to deal with blood & body fluid spills and clean-ups.
- ◆ How to properly disinfect a surface – from bathrooms, showers, locker rooms, offices, public/private schools, fitness centers, hospitals and everything in between.
- ◆ How to completely and properly disinfect a facility. From top to bottom, inside and outside, you'll completely mitigate any type of potential risk(s).
- ◆ How to train your personnel to not only clean but dispose of the final clean-up material.
- ◆ How to eliminate the spread of diseases/ viruses – not only throughout the workplace but also how to stop diseases/viruses from hitch-hiking their way home to loved ones.
- ◆ And so much more!
